

HEATH COMPANY • BENTON HARBOR, MICHIGAN 49022  
TLX 72-9421

## IMPORTANT NOTICE

Dear Customer:

We are in the process of changing the standardization of screws from slotted head to phillips head. The new screws will also be black or stainless steel instead of zinc.

If some of the screws in your kit do not match the description in the Manual, use the screws that match the size, thread and length of the description as shown in the following example.

Thank you,

HEATH COMPANY

EXAMPLE

**Heathkit® P-0**

GENERAL

**Heathkit®**

**PACK INDEX SHEET**

**Do NOT unpack.....** until the Manual calls for each **PACK** by number. Some of the 171, 172, and/or 173-series numbers are shown to help you indentify each **PACK** (the 171, 172, and/or 173-series part numbers on bags and boxes may have more digits than shown).

**DO NOT USE 171, 172, and/or 173-series numbers when ordering replacement parts.**
